شركة القوة للنقل والتخزين

From Port to Your Customer

One integrated logistics solution, with your goods every step of the way

1. Customs clearance
2. Transport
3. Storage
4. Order fulfilment
5. Delivery

Company Profile · Power Logistics Services · Al Nakheel, Jeddah

About Us

PLS, Power Logistics Services, is a Saudi company registered since 2019, based in Jeddah, and an integrated third-party logistics (3PL) provider.

From customs clearance to delivery, one party is responsible. We handle storage, transport and customs clearance for our clients so they can focus on their business. Your goods are not split between several providers, and responsibility never gets lost between the links of the chain.

Our main warehouse is in Al Nakheel, Jeddah, close to Jeddah Islamic Port, with partner warehouses across the Kingdom, and you deal with us as a single point of contact.

Our Vision

To be the first choice as an integrated logistics partner in the Kingdom, handling storage, transport and customs clearance so our clients can focus on their business, in support of Saudi Vision 2030 goals for the logistics sector.

Who We Serve

Companies and organisations that store and distribute devices, online stores, distributors and wholesalers, contractors and projects, and any business with seasonal or variable stock.

We serve companies and organisations of every size and line of business, from banking and financial services and technology and telecom to device and wholesale distribution, retail and e-commerce.

Our Clients

Mist	Hasebat Al Arab (Mindware)	Maqhawiya	iPower

One Chain: Five Steps, One Responsible Party

We stay with your goods from the moment they reach the port until they reach your customer, with no gaps between services.

1

Customs clearance

Through approved partners, and we follow the shipment with you.

2

Transport

From the port straight to the warehouse after customs clearance.

3

Storage

Monthly or annual, with withdrawals as needed: a pallet, part of one, or a single item.

4

Order fulfilment

Sorting, packing and barcodes, with your stock updated on every move.

5

Delivery

To your customer or branches in any city, with a signed delivery note.

You receive stock reports daily, weekly or monthly, with a receiving report for every shipment and a signed delivery note for every delivery.

Inside the Warehouse

Inbound and outbound handling

Receiving, unloading and loading, by pallet or carton.

Palletising and wrapping

Building goods onto pallets and shrink-wrapping them.

Barcode labels

Labelling every item or pallet for tracking.

Serial-number logging

For devices and high-value products.

Returns handling

Inspecting returns and putting them back in stock.

Pallet supply

New wooden pallets when needed.

Our Services

Everything your goods need, under one roof

Every service is a link in the same chain, with one party responsible for all of it.

Storage

Dry storage on monthly or annual contracts, with withdrawals on working days as you need.

Order fulfilment

We pick, pack and ship your store's orders, and handle returns.

IT equipment

Receiving, serial-number logging, staging and delivery with a signed delivery note.

Transport

From the port to our warehouse, and from the warehouse to your customers across the Kingdom.

Customs clearance

Through approved partners, then direct delivery to our warehouse.

Value-added services

Loading and unloading, pallet wrapping, new pallets and regular stock reports.

IT Equipment Storage and Secure Disposal

The full device lifecycle under one roof, from receiving it from the supplier to its disposal.

1. **Receiving and inspection**
   Matching the shipment to the purchase order, with a receiving report for every batch.
2. **Serial-number logging**
   Every device logged with a barcode label and a set location.
3. **Dedicated-zone storage**
   A separate area for your goods when needed, under surveillance.
4. **Kit staging**
   Sorting and grouping devices for each branch or employee, then packing.
5. **Delivery**
   To your branches and sites across the Kingdom, with a signed delivery note.
6. **Return and secure disposal**
   Data wiped with specialised software through a certified partner, and drives physically destroyed, with a destruction certificate for every batch.

What We Offer Companies

New-hire staging
We prepare the device and accessories in the employee's name and hand over with a signed delivery note.

Employee device lifecycle
We take back devices at end of service or replacement, inspect them and return them to stock.

Secure, organised storage
By location and client, with a serial number for every device.

Destruction certificate
For every batch of devices securely disposed of.

For Online Stores

From our shelf to your customer's door

Focus on selling; leave the orders to us.

1. **Receiving**
   We receive, count and shelve your stock in numbered locations.
2. **Orders**
   Your store's orders reach us as they come in.
3. **Order fulfilment**
   Picking, packing, barcode labels, and branded packaging on request.
4. **Delivery**
   Shipping to your customers across the Kingdom.
5. **Returns**
   We receive and inspect returns and put them back in stock.

Daily, weekly or monthly stock reports, and a direct line to our operations team.

Seasonal and Project Services

Gift and bundle kitting

For Ramadan, Eid, National Day and year-end: we assemble bundles to your design and deliver on time.

Project materials for contractors

Dedicated space and team for finishing materials, furniture and lighting, delivered to site on schedule.

How We Work

Four clear steps, each one documented

1

Quotation

Tell us the goods, quantity and services, and we reply within one business day with a detailed quote.

2

Receiving

We inspect and count your goods and send you a receiving report with quantity and condition.

3

Storage

Numbered locations for each client, and regular stock reports.

4

Release and delivery

Send a withdrawal request; we prepare and deliver the goods with a signed delivery note.

How We Build Your Quote

We do not publish fixed prices because every cargo is different. Your quote includes only the items you need: storage, handling, order fulfilment, dedicated space and team, transport, customs clearance through approved partners, and value-added services.

Reliability

A receiving report for every shipment, and a signed delivery note for every delivery.

Transparency

An itemised quote, with no hidden fees.

Security and Quality: Your Goods, Kept Safe

Ready for security and audit requirements.

24-hour guarding

Around the clock, every day of the week.

Continuous CCTV

With continuous recording.

Controlled access

Entry and handover with defined permissions.

Fire alarm and firefighting

Alarm systems and firefighting equipment in the warehouse.

Quality and Documentation

- A receiving report for every shipment
- Regular stock reports
- Dry storage for general goods

Goods We Do Not Accept

- Hazardous goods
- Flammable goods
- Temperature-controlled goods

Why PLS

Because you deal with one party that walks with you step by step, instead of coordinating a broker, a carrier, a warehouse and a courier.

One party

From port to your customer, one responsible party.

Flexibility

Monthly or annual contracts, with withdrawals on working days as you need.

Near the port

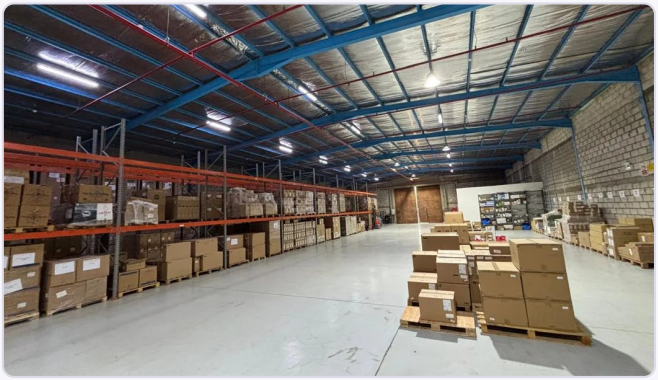

Our warehouse is close to Jeddah Islamic Port.

Security

Guarding, CCTV and controlled access.

Our Warehouse: Al Nakheel, Jeddah

Close to Jeddah Islamic Port, so your goods reach the warehouse faster after customs clearance. Wide aisles between multi-level pallet racks, an order fulfilment area, an electric stacker and pallet jacks. In other cities across the Kingdom, we store your goods through partner warehouses.
